For personal use only

Whilst we undertake a thorough due diligence process, assessing commercial and technical aspects of 24Nme's business, our focus remains on adding shareholder value by continuing to strengthen operations in our primary market, the Philippines. There we are working hard to establish and commercialize the MyWeps application with the 1Bro Global agent network, who we will be training to directly market the app to their individual customer bases. We look forward to reporting on the traction achieved by MyWeps, and are excited by the opportunities to apply this app with other agent networks, co-operatives and similar organizations after proving the app commercially robust across the 1Bro Global network.
